## Jimmy Clewes

Jimmy is on the Register of Professional Wood turners in the United Kingdom and a member of the American Association of Wood turners. He has over 22 years of experience in woodturning and woodworking. The demand for his services as a freelance demonstrator and teacher has taken him all over the world including his homeland of the United Kingdom, Europe, Canada, Norway, Finland, New Zealand and now his new home in the United States. When asked what drives him, he shares, "My energy comes from those around me. When I can stir the creativity of one's mind, that for me is very satisfying. As with any art-form, expression is only limited as one's mind and I want to 'raise the bar' and create an awareness of the art form that has been virtually unknown to most people."

## Eric Lofstrom

Erik stumbled upon turning in October of 2001 at a woodworking store in Sumner, WA. Attending a free woodworking demonstration on turning pens and letter openers was all it took to hook his curiosity. After hearing all the details (several times), his wife pursued this spark of excitement and set his woodturning journey in motion with a mini lathe and tool set for Christmas. Now years later, his woodturning enthusiasm continues to grow. In fall of 2002, Erik became a member of the South Puget Sound Chapter of the AAW and has served on the board of directors since 2005. He enjoys representing his club at woodworking shows and regularly mentors other turners at monthly sawdust sessions. In 2006, he began monthly demonstrations and teaching woodturning classes at local woodworking stores. As a passionate teacher and woodturner, Erik hopes to impact the world of woodturning by helping others build confidence in tool control and developing their own voice in woodturning!
